

White Labs Hazy IPA

WHITE LABS BREWING CO.

SPLIT BATCH | SAME BEER DIFFERENT YEAST STRAINS

A Phantastically Hazy and Delicious IPA. With loads of Citra, BRU-1, El Dorado, and Mosaic with an extra blast of Phantasm give notes of Guava and Passionfruit. Phantasm, a form of Sauvignon grapes with a bunch of bounded thiols waiting to be released by the yeast!

This yeast blend has been carefully selected to aid in the release of bound thiol compounds by targeting naturally-occurring strains possessing high B-lyase activity. Perfect for a juicy, hazy IPA with tropical characteristics of guava, passionfruit, and mango.

TASTING NOTES:
